## SKILLS

**Frontend Skills:** HTML, CSS, JavaScript, Angular, React, Bootstrap

**Backend Skills:** Java, Spring Framework, Spring Boot, Docker, Kubernetes, Hibernate, Javalin, Microservices

**APIs and Databases Skills:** API Testing, Postman, JDBC, Database Connection, MySql, Git, PostgreSQL, Flyway  
Software, Unit Testing, RDBMS

**Soft Skills:** Agile Software Development, Application Performance Optimization, CI/CD, Software Development Life Cycle, Team Development, Teamwork

## WORK EXPERIENCE

**Revature** • 06/2023 – 09/2023

### Java Developer, Intern

- Building enterprise backend application using Java, Java Framework, Spring Framework and Spring Boot to create Restful APIs and working with RDBMS like PostgreSQL and MySql.
- I had the opportunity to showcase my strong problem-solving skills, playing a pivotal role as a team member, assisting my colleagues with technical queries and helping them better understand complex algorithms. and implementing development methodologies such as SDLC and Agile Methodology
- My participation in projects and the delivery of tasks on time increasing my contributions, and productivity of the development team. My professional journey and my experience with Revature have equipped me with the precise skills and confidence needed to make a meaningful impact in the tech industry.

**Gao Tek Inc** • 02/2023 – 06/2023

### Software Engineer, Intern

- Using various technologies from WordPress for certain pages to creating custom components using Angular and creating robust applications with Spring Framework in the backend prioritizing the performance and portability of Web applications.
- Developed a bug-tracking system that reduced resolution time by 40% in 4 weeks.
- My approach to optimizing application performance had a significant impact on the quality and efficiency of projects and contributed to the overall success of the company.

**Freelancer.com** • 03/2020 – 12/2022

### Software Developer

- Creating enterprise web applications using Spring, Spring boot for the backend, SpringJPA for the DB connection, Postman for API Testing,
- Angular and React for the frontend and also the use of Docker to ensure the portability of the applications.
- My development in the backend and frontend led me to a wide range of clients where I was able to strengthen not only my coding skills but also the ability to always deliver an excellent and very professional service.

EDUCATION

Associate's Degree in Computer Science

{School Name} • 09/2015 - 12/2019
